DETAILED ACTION

Examiner's Amendment

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Mr. Robert P. Michal (Registration No. 35, 614) on April 27, 2005.

2. The application has been amended as follows:

In Line 3 of Claim 7, "machine" has been changed to "computer".

In Line 2 of Claim 26, "machine" has been changed to "computer".

In Line 4 of Claim 42, "recorded as digital data" has been changed to "recorded as digital data on a computer-readable medium so as to be readable by a computer".

Response to Amendment

3. Applicant's amendment filed April 18, 2005, has been entered and made of record.

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance:

The instant invention recites method, apparatus, and recording medium, which generate a three-dimensional image stereograph having one file structure, and records the three-dimensional image on a recording medium comprising image data generation

means for generating one image data corresponding to a single stereo image on the basis of a first and second monocular images by forming an object image via first and second optical axes substantially corresponding to parallax. The invention further comprises of header information generation means and recording means for recording a single image file having a data structure that contains the image data and the header information which is inseparable from the image data on a recording medium, wherein the image data is obtained by forming predetermined frame line regions on boundary regions of the first and second monocular images which correspond to outer frames wherein the first and second monocular images are formed such that less than all of each of these images remains thereby eliminating a darkened or overlapping portion of the images to form a frame line having a width of one to several pixels in a boundary region or around the single stereo image to visually identify the single stereo image.

The features identified, in combination, are neither discussed nor suggested by the prior arts of record.

- 5. Claims 2, 3, 5, 7, 9, 10, 12, 15, 16, 18, 21-23, and 25-45 are allowed.
- 6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
